Introduction

Why Europe?

All of Europe is beautiful, so why pick just one place? Traveling by train will give us a good look at places along the way from Poland to Scotland. This is a good option as we are able to stop as well.

Total Mileage

We will be traveling via high-speed rail, which travels at an average of 150 km/h or 93mph. We will be traveling approximately 2.5-3 hours a day. Google map's estimates predict the trip to take 18 hours and 12 minutes.

$$d = r \cdot t$$

$$1767 \text{ miles} = 93 \text{ mph} \cdot 19 \text{ hours}$$

The Budget

Days	Food	Lodgings	Travel
1	150	1,000	1,000
2	150	1,000	1,000
3	150	1,000	1,000
4	150	1,000	1,000
5	150	1,000	1,000
6	150	1,000	1,000
7	150	7,000	1,000

The Trip

The Beginning

The Crooked Forest in Poland is an unsolved mystery, a perfect spot to begin travel. The crooked forest has been a mystery for ages: why are the trees shaped like that? Today, the mystery is still unsolved, no one knows why over 400 trees take a sharp 90-degree turn before growing upward, leaving this a fascinating, eerie, and unmissable destination spot.

In Betweens

- Germany
- Belgium
- England

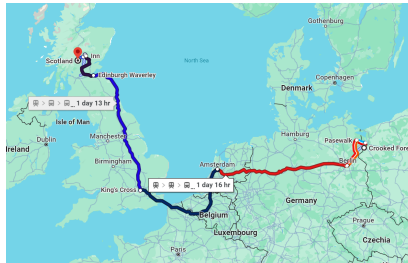

Figure: Train rails between destinations.

The End...?

Edinburgh is the heart of Scotland, home to the Edinburgh castle and the sixth oldest university in the United Kingdom.
